FEATURES

- This unique track ride allows for "free-spinning" while gliding from one end to the other – a movement that often provides relief from sensory strain for many on the autism spectrum
- Flexible strap seat provides a snug yet accommodating fit
- Our inclusive Made-For-Me seat* is available for full body support
- Nearly seamless track connection creates a smooth ride from one end to the other
- Inclined track ends help provide rider momentum at either end of the ride
- Available in 34' or 49' ride lengths
- Can be installed on level ground with no embankments needed

* Made-For-Me Seat is intentionally designed without swivel action and does not require Launch Pads

Born in collaboration with noted inventor, author and autism advocate - Dr. Temple Grandin, **the Temple Trolley** offers gliding, spinning and swinging in a beautiful fun package!
