3 Year Limited Warranty
3-Year limited warranty on spring bouncer C-type springs.

1 Year Limited Warranty
1-Year limited warranty on spring bouncer coil springs to other Play & Park Structures products including moving parts.

Terms & Conditions

TO THE EXTENT PERMITTED BY LAW, THESE WARRANTIES ARE EXPRESSED IN LIEU OF ANY OTHER IMPLIED OR EXPRESSED WARRANTIES OR REPRESENTATIONS BY ANY PERSON, INCLUDING AN IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS. WE RESERVE THE RIGHT TO MODIFY SPECIFICATIONS OR DISCONTINUE PRODUCTS WITHOUT NOTICE.

Terms of Sale: To governmental agencies and tax supported institutions, and those with approved credit, payment is due within 30 days from the date of invoice. A 1.5% per month finance charge will be imposed on all past due accounts. We also accept payment by VISA, MasterCard, or American Express. All other orders will require a 50% deposit at the time of order entry. The balance due may be made with a certified check or receipt of shipment (C.O.D.).

Prices: Prices are F.O.B. factory and do not include freight charges. All prices listed were current at the time of publication and quoted in U.S. funds. Due to the abnormally high cost of fuel and the impact on many of the materials used in our industry, quotations are valid for 30 days only and prices may be subject to material and fuel surcharges at the time of shipment, which are subject to change without notice. Current prices will apply at the time of shipment.

Freight charges: Freight charges are determined and collected by the carrier unless Play & Park Structures requests and agrees to prepay and add these costs to the invoice.

Taxes: If applicable, taxes will be added to the invoice except when a tax-exempt certificate is provided with the purchase order at the time of order entry.

Minimum Order: Our minimum order is US $50.00.

Order Cancellation: Once accepted, orders can be canceled only with the consent of Play & Park Structures, and on terms which will indemnify Play & Park Structures against loss. Canceled orders will be subject to a restocking fee. Equipment “built-to-order” is non-cancellable.

Domestic Shipments: Unless specifically given routing instructions on the purchase order, shipments will be made via the carrier we consider to be the most economical and practical in reaching the final destination. All domestic shipments are governed by ICC Regulations.

Delays in Transit: Play & Park Structures is not responsible for delays in transit and such delays shall not alter our invoicing terms. If your order does not reach you within a reasonable time after being advised that shipment went forward from our plant, Play & Park Structures will assist in the tracking process.

Loss or Damage in Transit: Play & Park Structures is not responsible for loss or damage in transit. When we release the material to the carrier, a bill of lading is signed which states that the shipment was received from us complete and in good condition. A copy of this bill of lading is forwarded to you with the shipment and should be checked carefully with the materials you received. Any shortage, discrepancy, or damage must be noted on the delivery receipt signed by the carrier’s representative. Failure to accept the materials on the delivery receipt may impair your right to recovery from the carrier.

Weights: All published weights are estimated and include appropriate packing materials. Actual weights may vary slightly.

P )( )y & P a rk Policies
Specifications were current at the time of publication. Play & Park Structures reserves the right to modify specifications or discontinue products without notice.

ISO 14001

We are proud to be ISO 14001 certified for our manufacturing facility in Fort Payne, Alabama. Also referred to as the “Green Certification,” ISO 14001 is an internationally recognized standard for environmental management, measurement, evaluation and auditing. As an ISO 14001 certified company, Play & Park controls the environmental impact of our activities, products and services by implementing Environmental Management System (EMS) that meets international standards, but is specific to the play products being produced.

ISO 9001

An industry certification process issued by the International Organization for Standardization. It is used to measure manufacturing standards and to certify company compliance with quality control systems covering design, development, production, installation, inspection and testing.

DOJ 2010 Standard for Accessible Design

Access Board (The United States Architectural and Transportation Barriers Compliance Board) has combined the Accessibility Guidelines for Play Facilities as set forth in the Americans with Disabilities Act of 1990. The final rules, fact sheets and analysis are all available at the Department of Justice web site.

NSF International

NSF International is an independent and world renowned developer of technical standards utilized in testing a multitude of products. NSF’s P15.29 committee met regularly for over a decade in the continual development of the P15.29 Standard Consumer Safety Performance Specifications for Playground Equipment for Public Use. This standard was revised in 2011 and updated in 2016 to reflect the latest safety standards.

CPSIC

The Consumer Product Safety Commission is an independent agency within the United States Federal Government with the authority to inform the public of current product safety information and recommended practices. The CPSIC first published the guidelines for playgrounds in 1981 and have updated their publication several times since then. The current CPSIC Handbook for Public Playground Safety, publication #225, is the excellent guide for all playground operators in the United States.

ASTM

ASTM is an international and world renowned developer of technical standards utilized in testing a multitude of products. ASTM’s P15.29 committee met regularly for over a decade in the continual development of the P15.29 Standard Consumer Safety Performance Specifications for Playground Equipment for Public Use.

IPEMA

In the interest of public playground safety, the International Playground Equipment Manufacturer’s Association (IPEMA) provides the Third Party Certification Service whereby a designated independent laboratory, TUV America, Inc., validates an equipment manufacturer’s certification of conformance to ASTM F1487, Standard Consumer Safety Performance Specifications for Playground Equipment for Public Use, except sections 7.1.1, 10.8.12.5.1, to CAN/CSA 2014, Children’s Playspaces and Equipment, except clauses 9.8, 10, 11, or 12. The use of corresponding logo in Play & Park Structures’ catalog signifies that Play & Park Structures has received written validation from the independent laboraty that the product(s) associated with the use of the logo conforms to the requirements of the indicated standard. Check the IPEMA website, www.ipema.org, to confirm product validation.

IPEMA

4305 N. 8th Street, Suite A, Harrisburg, PA 17110

CSA

A large portion of Play & Park Structures equipment meets CSA standards, but please review structures, components or freestanding items that specifically meet that need if required.

Flexible Financing Program

Through a strategic alliance with Navitas Corporation, Play & Park is able to provide flexible financing for customers who require funding assistance on their next playground project. Complete our financing request form online at playandpark.com, and bring play opportunities to your school or community more quickly.

National Demonstration Site

Learn more about becoming a national demonstration site for inclusive playgrounds, those focused play, a NatureGrounds® play space, or for physically active play.
